About this leaflet

This leaflet is about something called the Graded Care Profile 2 that we want to do with you. It will help us understand what you are doing well and what support you may need with being a parent.

There are lots of things to think about when you are a parent. And it is important to know what your child needs.

You will get support from a caseworker to look at this.

What next?

We will have our first meeting with you.

It will be at a time that is good for you.

Please ask us if you have any questions.

We are happy to help.

Together you will look at things like:

- health
- food
- clothes
- keeping clean and safe
- helping your child be happy and well
- school, friends and playing

How it works

You and the caseworker will look at different things you have to do as a parent.

Your caseworker will give you scores for different things you do.

The scores will help you know:

- what you are good at
- what you need more help with

Your caseworker will talk to you about this.

You and your child can also work out your own scores if you want.

Here are the scores and what they mean:

- 1.** You are doing an excellent job! You don't need to change anything
- 2.** You are doing really well
- 3.** You are doing OK. But you may need some help to get better
- 4.** You need to get better at this and change some things
- 5.** You need to get a lot better at this

You can look at the scores again in a few months to see what has changed.
